FOR IMMEDIATE RELEASE

Jan. 26, 2020
Lewiston, NY

Board game publisher Puzzling Pixel Games, in collaboration with designer Chip Beauvais announces a fun spin on a new deck-building game - **Jackpot Payout**.

“The race is on to drain the casino of its last penny. The casino’s slot machines are hot! But you aren’t the only one to realize this. Apply smart decision-making while getting a little help from Lady Luck to make the house go broke! Claim victory over the other gamblers (and the house) by walking away with the most coins!

Jackpot Payout combines the wild swings of fortune of slot machines with player-driven choices of deck-building games. Hit a jackpot by matching symbols on all three cards in play. Cards are worth their value in coins, but each card can only be scored once. The game ends with a final jackpot round where players can chain multiple jackpots together! Can you hit the jackpot and win the payout?”

This addictive and entertaining spin on popular deck-building games is designed for 1 to 4 players, ages 8+ and plays in about 30 minutes.

A Kickstarter campaign for Jackpot Payout will be launching in 2020.

More information on the game and its launch is available by contacting Puzzling Pixel Games directly. Contact information is as follows.
